*Re: City of Bunkie
Louisiana Economic Development
Bunkie Job No. 8819*

Dear Sirs,

The City of Bunkie's water system is currently served by three (3) water production wells. The City is planning the development of a fourth water production well which is scheduled to be on-line by February 2012. The total available well capacity is 1.584 million gallons per day.

The current maximum daily demand of the system is 700,000 gallons per day. The current available excess capacity is 884,000 gallons per day.

If you have any questions please feel free to contact me.

Yours truly,

CITY OF BUNKIE

Buddy Redmon, Operator

MR/jlv
